

ORACLE WORKFORCE DEVELOPMENT TRAINING CENTER

As an Oracle Workforce Development Program (WDP) partner, the Pacific Center for Advanced Technology Training (PCATT) delivers non-credit Oracle training at Honolulu Community College. The PCATT Oracle Workforce Development Training Center prepares students for entry-level employment in the Oracle job-roles of Database Operator and Database Analyst. The Training Center also prepares students for Oracle's industry-recognized certification exams. Industry Analysts and Experts agree, Oracle Certifications are one of the most sought after marqueses of credibility for expertise in the Information Technology marketplace and now, the new Internet Economy. Oracle Powers the Internet and Developers, Engineers, and Administrators are greatly needed to support the ever-growing technologies that Oracle brings to the world.

Course Offerings

The PCATT Oracle Workforce Development Training Center is currently offering five courses in the WDP Oracle Database Administrator (DBA) curriculum track. The curriculum used in teaching these courses is the official Oracle curriculum. Each student in the class is provided an Oracle student kit. The expertise of Oracle DBAs is integral to the success of increasingly complex, data intensive and demanding environments. Today's DBA is called upon to fine tune day-to-day performance and prevent unscheduled crisis, such as a crashed database or hours of expensive downtime. The critical work requires a broad understanding of the architecture and processes of the Oracle database, as well as extensive hands-on experience in solving problems. The DBA candidate will complete the series of five courses and exams to demonstrate knowledge and DBA skills acquisition. Upon passing all five exams, you will be Oracle Database Administration certified!

- Introduction to Oracle: SQL and PL/SQL
- Database Architecture and Administration
- Database Backup and Recovery
- Database Performance and Tuning
- Database Network Administration
